

YOUR PROFESSIONAL SPRAYERS

Productivity • Safety • Comfort • Convenience

About Sprayer Plus

Sprayers Plus™ has an established presence in the industry coupled with over 30 years of manufacturing experience. Best in quality sprayer manufacturing, premium power equipment expertise and a new state of the art product engineering and manufacturing facility has fueled the growth at Sprayers Plus™. Our team of industry experts developed a strategic plan based on a thorough evaluation of competitive products available with the focus of improving quality and accessibility.

With a clear understanding of the market needs, our team redefines exceptional quality and user experience. To us, the definition of exceptional quality goes beyond marketing or distribution channels. Quality means being well-designed, functional, durable, authentic and reasonably priced – we would like to make sure that every dollar spent by our customers are reflected in the product quality and user experience.

With these principles and values in mind, our team has developed over 30 high quality products, covering a broad spectrum of applications for the professional landscape, agricultural, industrial and construction markets as well as recreational home users.

In the years since the first Sprayers Plus™ sprayer was delivered to end users, the brand has become a strong market leader in the sprayer industry known for renowned product excellence and customer experience. With our definition of exceptional quality, our company will continue to improve, innovate and expand our products to add value and succeed with our working partners and customers.

Effortless Sprayer

EFFORTLESS SPRAYER

Professional Landscaper
105E e-POWER

The E-Power 105E eliminates the need for pumping. Powered by the commercial grade 20-volt Lithium Ion battery, its pump delivers a constant 40 PSI which allows for a very even and constant spraying experience. The 105E weighs about 3 lbs less than the traditional manual backpack sprayer in the marketing and yet, still delivers a stream spraying of up to 33 ft. horizontal and 23 ft. vertical for tall trees and vines. Reach higher and further with the 105E Effortless Sprayer compared to conventional pump-up sprayers.

- 20V Lithium-ion powered. Spray up to 23 tanks per single charge
- Constant 40 PSI working pressure to reach farther and wider
- Lightweight and ultra portable, weight only 9.6 lbs
- 20" Brass Wand, Adjustable Brass Nozzle & Plastic Fan Nozzle included
- O-rings & Seals, made of specially formulated Viton® that withstands wide range of chemical attack
- Stainless steel body frame and rod to prevent rusting
- Adjustable high-density foam straps with good durability and comparability

Application

- Fertilizing
- Herbicide
- Insecticide
- Fungicide
- Pesticide
- Weed & Feed

EFFORTLESS SPRAYER

Sanitation

BL25E **e-POWER**

Application

- Sanitation
- General Cleaning
- Carpet cleaning
- Bleach (Max. dilution ratio 3 : 1)

12V LITHIUM
ION BATTERY

The BL25E Battery Hand-Held Sprayer makes your daily job never be easier. Because the sprayer is only weighted at 6.3lbs (including battery) with a constant output of 30 PSI, it allows users to be always working in an “effortless” mode. While his brother – FH25E Sprayer is mainly designed for farm and gardening jobs, the BL25E can withstand stronger chemicals such as bleach and sanitizing solutions. The tank features an extra wide QuickFill 6.25” mouth opening for spill-free filling, which not only fills faster but also safer. A stainless-steel wand and an additional filter at the spray gun handle highlights the BL25E at a higher level among the Sprayer Plus family.

- High grade and reliable Viton®
- 12V Lithium-ion powered
- Spray up to 18 tanks per single charge
- Constant 30 PSI working pressure
- Weighing only 6.2 lbs

12V LITHIUM
ION BATTERY

FH25E Battery Hand-Held Sprayer has the perfect design and sizing to be used for both residential and commercial. With a weight of 6.2lbs, not only is it an effortless pumping sprayer but also effortless to be carried around. The battery is located externally for easy access to remove and replace. While similar sprayers in the market do not come with a wand holder on the sprayer for storage and transportation purpose, the FH25E comes with both vertical and horizontal mounting. The Sprayers Plus™ 12V battery is capable to deliver up to 36 gallons of spraying duration on a single charge. With a 6.25" Quickfill mouth opening design, spillage can be avoided more easily than ever.

- 12V Lithium-ion powered

DUAL PUMP SYSTEM

Professional Landscaper

100 (with Agitation)

Application

- Fertilizing
- Herbicide
- Weed & Feed
- Fungicide
- Insecticide
- General Gardening
- Pesticide

The Sprayers-Plus™ 100 is a top of the line backpack sprayer engineered for the professional landscaper. The highest quality materials are integrated to ensure the 100 is ready to meet the grueling demands of pro use day in and day out. 100 is equipped with the exclusive Triple Function Piston Diaphragm Pump module with jet agitation. The pump is capable of 150 PSI with a recommended working pressure at 15 ~ 80 PSI. The jet agitation enables the use of an insecticide or other pesticide formulations which are in a finely ground state. Wettable powders are designed to be applied as a dilute suspension with this sprayer.

- Dual System Diaphragm-Piston pump design
- Agitation for wettable powder
- Max. 150PSI. Working pressure 15-80PSI
- High grade and reliable Viton®
- Powder coated brass wand & adjustable brass nozzle
- Stainless steel body and rod
- Adjustable high-density foam strap

Target Market	Professional Landscaper
Pump Type	Diaphragm-Piston Dual Pump System
Capacity - gallon (liter)	4 (15)
Dry Weight - lbs. (kg)	11.8 (5.3)

DIAPHRAGM PUMP

Professional Landscaper 101

Application

- Fertilizing
- Herbicide
- Weed & Feed
- Fungicide
- Insecticide
- General Gardening
- Pesticide

The 101 is a popular choice of our professional landscaper line when only the best will do. The high-density polyethylene housing with UV protection and 5.24" QuickFill mouth opening are two of the many features that make the 101 ready for the most demanding applications. It is designed for use by landscape professionals, golf course maintenance, forestry, pest control and arborists. The adjustable premium shoulder straps and comfort padding are fabricated for enhanced operator's comfort for long working hours.

- External Diaphragm pump design
- Max. 100PSI. Working pressure 15-60PSI-80PSI
- High grade and reliable Viton®
- Powder coated brass wand & adjustable brass nozzle
- Stainless steel body and rod
- Adjustable high-density foam strap
- Large 5.24" QuikFill opening design

Target Market	Professional Landscaper
Pump Type	Diaphragm Pump
Capacity - gallon (liter)	4 (15)
Dry Weight - lbs. (kg)	11.6 (5.2)

DUAL PUMP SYSTEM

Professional Landscaper 103

Application

- Fertilizing
- Herbicide
- Weed & Feed
- Fungicide
- Insecticide
- General Gardening
- Pesticide

The 103 is fitted with top grade Viton O-rings and seals, properly maintained, will outlast those found on any competitive product. The hose is 51" long and is the most flexible and durable hose used in the industry which remains flexible in the hottest hot and coldest cold conditions.

The pump is capable of 150 PSI with a recommended working pressure at 15-80PSI. A 20" powder coated brass wand is corrosion resistant with default approved chemicals.

103 Sprayer also features the adjustable nozzle with mist spray volume of 530±30ml and a water column of up to 1200±50ml on most models.

- Dual System Diaphragm-Piston pump design
- Max. 150PSI. Working pressure 15-80PSI
- High grade and reliable Viton®
- Powder coated brass wand & adjustable brass nozzle
- Stainless steel body and rod

Farm & Garden

DIAPHRAGM PUMP

Professional Gardener 201

Application

- Fertilizing
- Herbicide
- Weed & Feed
- Fungicide
- Pesticide
- General Gardening

The 201 is ideal for the landscaper and gardener – anyone who will accept no less than a high quality general purpose sprayer. It also has a strength added tubular steel handle and frame. The handle folds and locks for easier transport and storage. This model includes the Spray-Plus™ premium spray gun with lock pin feature, brass spindle, filter and grip. It is a competent sprayer that allows accurate directional chemical applications.

- External Diaphragm Pump design
- Max. 90PSI. Working pressure 15-55PSI
- Powder coated brass wand & adjustable brass nozzle
- Coated metal body and rod
- Additional grip filter
- Comfort padding and adjustable strap
- Polyethylene tank with UV protection

DIAPHRAGM PUMP

Farm & Garden

301

Application

- Fertilizing
- Weed & Feed
- Herbicide
- General Gardening

The 301 Sprayer has features similar to the “built for daily use” sprayers but with a lower price point. The 4 Gallon tank is molded with high-density polyethylene including UV inhibitor protection.

301 external Diaphragm Pump module has a working pressure of 15 to 50 PSI, and is ideal for the application of fertilizing, herbicides, weed& feed. The frame and the pump handle are long lasting industrial strength tubular metal tub.

- External Diaphragm Pump design
- Max. 60PSI. Working pressure 15-50PSI
- Fiberglass wand & adjustable plastic nozzle
- Coated metal body and rod
- Polypropylene adjustable Strap
- Polyethylene tank with UV protection

PISTON PUMP

Farm & Garden

302

Application

- Fertilizing
- Weed & Feed
- Herbicide
- General Gardening

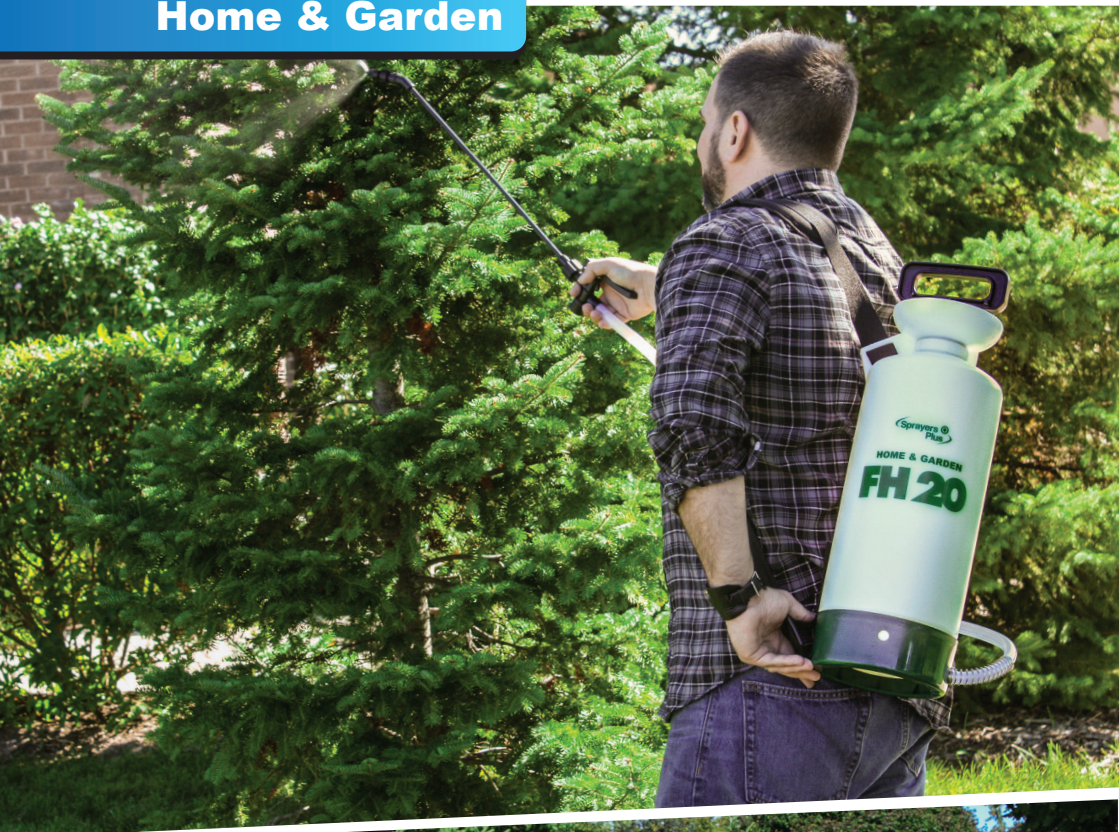

The 302 Sprayer is manufactured using higher-grade materials and components to ensure many years of use. Whether the task is applying herbicides to small urban garden patch or fertilizer at park-like estate gardens, the 302 Piston Pump Sprayer will deliver good results.

This model is equipped with a pump that is capable of maximum 70 PSI with a recommended working pressure between 15 – 60 PSI. This model also utilizes 51" industrial Reinforced PVC hose and Spray-Plus™ spray gun, which are components usually found only in higher-end sprayers in the market but Sprayers-Plus™ includes these as standard.

- External Piston Pump design
- Max. 70PSI. Working pressure 15-60PSI

Sanitation

PISTON PUMP

Commercial 401/402

Application

- Sanitation
- Carpet Cleaning
- Weed & Feed
- Fertilizing
- General Cleaning
- General Gardening

The 400 Series is engineered for a wide range of applications and capable of using solutions many of which would severely damage most high-intermediate units in the market.

With the option of selecting the largest capacity of any backpack sprayer in the family, the 400 Series' tank molded with a 6 gallons (or 4 gallons) capacity using high-density polyethylene which includes UV inhibitor to protect the sprayer from the sun and heat. The "no-compromise" materials and components used in the manufacturing include a stainless-steel fold-back handle and firm hardware, commercial graded Viton® seals and O-rings, brass wand, premium spray gun and a lot more. It is also one of the high pressure sprayer that will spray higher and farther.

- Internal Piston pump design
- Max. 120PSI. Working pressure 15-80PSI
- Selection of capacity, 4 or 6 Gallon
- Agitation for wettable powder
- High grade and reliable Viton®
- Powder coated brass wand & adjustable brass nozzle
- Stainless steel body and rod

COMPRESSION PUMP

Sanitation BL20

Application

- Bleach
- Sanitation
- General Cleaning
- Cleaning Compound

The BL20 is probably a "must-have" equipment for people who work in the sanitizing and cleaning industry. It's reliable, durable and very affordable. Three different types of nozzle are provided along with the sprayer and are ready to adapt and be used for all situations and purposes.

- Compression Pump design
- Max. 45PSI. Working pressure 15-40PSI
- Fiberglass wand & adjustable plastic nozzle
- Adjustable high-density foam strap
- Comfort padding and adjustable strap
- Polyethylene tank with UV protection

Target Market	Sanitation
Pump Type	Compression Pump
Capacity - gallon (liter)	2 (7.6)
Dry Weight - lbs. (kg)	6 (2.7)
Seals & O-Rings	High Grade Proprietary Material
Spray Gun	Sprayers Plus™ with lock pin
Wand Material	Fiberglass
Wand Length - inch (cm)	20" (51)
Hose	Polyethylene (Clear)
Hose Length - inch (cm)	51" (130)
Agitation	No
Max PSI	45
Working PSI	15-40
Standard Nozzle	Plastic Adjustable Nozzle
Fan Nozzle	Plastic 90° / 110° Nozzle
Shoulder Strap	Comfort Padding / Adjustable Strap
Mouth Opening inch	5.24" QuickFill
Warranty	1 Year Commercial & Residential

FOAM SPRAYER

Sanitation FY10

Application

- Detergent
- Cleaning Compound

The FY10 Foam sprayer is a multi-use sprayer well suited for cleaning office windows, cleaning around the home & garden – also ideal for cleaning your car!

The goal of our engineers is to design a sprayer that can transform the cleaning solutions into foam. This will significantly reduce the amount of solution used and practically avoid all runoffs when applying the foam to vehicle or any vertical surfaces which can also be sprayed evenly on a large surface. With the variety of interchangeable nozzle inserts supplied with the FY10, the user can vary the concentration and span of the foam.

The FY10 is a 1 gallon tank with pressure release valve equipped for safety purposes.

- Compression Pump design
- Max. 45PSI. Working pressure 15-40PSI
- Foaming technology for cleaning compound and detergent
- Fiberglass wand & adjustable plastic nozzle
- Comfort padding and adjustable strap
- Large 5.24" QuickFill opening design

Target Market	Sanitation
Pump Type	Compression Pump
Capacity - gallon (liter)	1 (3.8)
Dry Weight - lbs. (kg)	5.3 (2.4)
Seals & O-Rings	High Grade Proprietary Material
Spray Gun	Sprayers Plus™ with Lock Pin
Wand Material	Fiberglass
Wand Length - inch (cm)	20" (51)
Hose	Reinforced PVC
Hose Length - inch (cm)	51" (130)
Agitation	No
Max PSI	45
Working PSI	15-40
Standard Nozzle	Plastic Adjustable Nozzle
Fan Nozzle	Plastic 90°/ 110° Nozzle
Shoulder Strap	Comfort Padding/ Adjustable Strap
Mouth Opening inch	5.24" QuickFill
Warranty	1 Year Commercial & Residential

Construction

COMPRESSION PUMP

Construction

20C/35C

Application

- Diesel
- Curing Compound
- Form Oil

“C” stands for construction. Like how the sprayer is named, it handles construction chemicals and tougher situations.

It is designed to be used for foam release solution, form oil, diesel, curing compounds, oil based primers & oil or water base sealants. It is touted to be the ideal sprayer to apply solvent base curing and sealant to expose aggregate and decorative concretes.

One of the many key features of 20C/ 35C is the chemical resistant hose which completely impervious to the solutions and chemicals that have approved for use in these models. It also comes with a pressure relief valve, an important safety feature.

- Compression Pump design
- Max. 45PSI. Working pressure 15-40PSI
- Selection of capacity, 2 or 3 Gallon
- High grade and reliable Viton®
- Powder coated brass wand & adjustable brass nozzle
- Comfort padding and adjustable strap

Target Market	Construction
Pump Type	Compression Pump
Capacity - gallon (liter)	20C - 2 (7.6) / 35C - 3 (11.4)
Dry Weight - lbs. (kg)	20C - 6.1 (2.8) / 35C - 7 (3.2)
Seals & O-Rings	Viton®
Spray Gun	Sprayers Plus™ with Lock Pin & Filter
Wand Material	Brass
Wand Length - inch (cm)	20" (51)
Hose	Polyethylene (Clear)
Hose Length - inch (cm)	51" (130)
Agitation	No
Max PSI	45
Working PSI	15-40
Standard Nozzle	Brass Adjustable Nozzle
Fan Nozzle	Plastic 90° / 110° Nozzle
Shoulder Strap	Comfort Padding / Adjustable Strap
Mouth Opening inch	5.24" QuickFill
Warranty	1 Year Commercial & Residential

ACID

Construction

10ACID

20ACID

Application

- Acid

Sprayers-Plus™ is a worldwide leader in the production of high quality and safe specialty sprayers. The 10ACID and 20ACID serve a very specialized sector of the sprayers market that has very few competitors.

A sprayer used for the application of solutions such as acid stain, muriatic acid and phosphoric acid is not a regular, general-purpose sprayer. To increase durability, The ACID sprayer has special O-rings, seals, wand, nozzles and chemical resistant hose to withstand acids. Because the ACID Hand-Held features these special acid-resistant components, it is known for its outstanding, industry leading, service life.

- Design to spray acid base solution
- Max. 45PSI. Working pressure 15-40PSI
- Selection of capacity, 1 or 2 Gallon
- Construction grade EPDM rubber hose & seals
- Chemical resistant wand & adjustable nozzle included
- Large 5.24" QuickFill opening design

Target Market	Industrial Construction
Pump Type	Compression Pump
Capacity - gallon (liter)	10ACID - 1 (3.8) / 20ACID - 2 (7.6)
Dry Weight - lbs. (kg)	10ACID - 5.4 (2.5) / 20ACID - 5.5 (2.5)
Seals & O-Rings	High Grade Proprietary Material
Spray Gun	Sprayers Plus™ with Lock Pin & Filter
Wand Material	Acid Tolerant PVC
Wand Length - inch (cm)	20" (51)
Hose	Commercial Grade EPDM Rubber
Hose Length - inch (cm)	51" (130)
Agitation	No
Max PSI	45
Working PSI	15-40
Standard Nozzle	Plastic Adjustable Nozzle
Fan Nozzle	Plastic 90°/ 110° Nozzle
Shoulder Strap	Comfort Padding/ Adjustable Strap
Mouth Opening inch	5.24" QuickFill
Warranty	1 Year Commercial & Residential

ACETONE / ALCOHOL Construction 20ACT / 35ACT

Application

- Acetone
- Lacquer Thinner
- Alcohol

Acetone resistant materials are always costly. Sprayers-Plus™ engineers took the challenge to develop a high quality, Hand-Held sprayer capable of handling acetone solutions at an affordable price. After thorough R&D process, we would like to proudly present the 20ACT/ 35ACT Sprayer.

The 20ACT/ 35ACT Sprayer, a high-density Hand-Held special application sprayer is engineered for use with acetone, alcohol and lacquer thinner solutions. The ACETONE Sprayer comes with the upgraded powder coated brass wand along with special Sprayers-Plus™ proprietary material to make the sprayer of choice by commercial and industrial contractor. The ACTONE Sprayer is also fitted with a pressure relief valve, an important safety feature.

- Design to spray acetone/ alcohol base solution
- Max. 45PSI. Working pressure 15-40PSI
- Selection of capacity, 2 or 3 Gallon
- Construction grade EPDM rubber hose & seals
- Brass wand & chemical resistant nozzle included
- Large 5.24" QuickFill opening design

Target Market	Industrial Construction
Pump Type	Compression Pump
Capacity - gallon (liter)	20ACT - 2 (7.6) / 35ACT - 3 (11.4)
Dry Weight - lbs. (kg)	20ACT - 6.7 (3.0) / 35ACT - 7.2 (3.3)
Seals & O-Rings	Commercial Grade EPDM Material
Spray Gun	Sprayers Plus™ with Lock Pin & Filter
Wand Material	Powder Coated Brass
Wand Length - inch (cm)	20" (51)
Hose	EPDM Rubber
Hose Length - inch (cm)	51" (130)
Agitation	No
Max PSI	45
Working PSI	15-40
Standard Nozzle	Plastic Adjustable Nozzle
Fan Nozzle	Plastic 90° / 110° Nozzle
Shoulder Strap	Comfort Padding / Adjustable Strap
Mouth Opening inch	5.24" QuickFill
Warranty	1 Year Commercial & Residential

PRIMER/ SEALANT

Construction PS20

Application

- Graffiti Removing
- Water Based Sealant
- Oil Based Primer
- Form Oil

PS20 is a very handy tool with broad application for people who work in the field. The quality of the sprayer is shown by the intensity of chemical it can handle. PS20 is well known to be capable of spraying primer & sealant. In addition, it has the capability of handling graffiti removal, which could damage most other typical sprayers. PS20 has tremendously high tolerance and all components are capable of withstanding strong chemicals for removing long-time stains.

- Design to spray oil based primer/ water based sealant
- Max. 45PSI. Working pressure 15-40PSI
- High grade and reliable Viton®
- Powder coated brass wand & adjustable brass nozzle
- Comfort padding and adjustable strap

Target Market	Industrial Construction
Pump Type	Compression Pump
Capacity - gallon (liter)	2 (7.6)
Dry Weight - lbs. (kg)	6.6 (3)
Seals & O-Rings	Viton®
Spray Gun	Sprayers Plus™ with lock pin
Wand Material	Brass
Wand Length - inch (cm)	20" (51)
Hose	Polyethylene (Clear)
Hose Length - inch (cm)	51" (130)
Agitation	No
Max PSI	45
Working PSI	15-40
Standard Nozzle	Brass Adjustable Nozzle
Fan Nozzle	Plastic 90° / 110° Nozzle
Shoulder Strap	Comfort Padding / Adjustable Strap
Mouth Opening inch	5.24" QuickFill
Warranty	1 Year Commercial & Residential

HANDI SPRAYER

Acid-Mate 501

Application

- Acid

The 501 Acid-Mate is a new addition to the Sprayers-Plus™ sprayer line. While Sprayers-Plus™ is the go-to sprayer for acid applications with the 1 gallon and 2 gallon acid compression sprayers, a convenient carry-along sprayer is also a common request from the field.

With an internal high output 5cc piston pump and adjustable spray nozzle, the 501 Acid Mate has proven to be ideal for the application of acid stains, muriatic acid and phosphoric acid and for acid etching. The 501 Acid Mate is commonly used for cleaning tiles, concrete, wheels and the removal of rust.

- Chemical resistant components and seals
- 1.4L holding capacity
- Long range spot spraying
- Adjustable nozzle for stream and mist
- 90° & 110° fan nozzle included
- Large 1.30" QuickFill opening design

Type	Handi Sprayer
Target Market	Construction
Pump Type	High Output Piston
Capacity oz. (ltr)	48 (1.4)
Seals & O-Rings	High Grade Proprietary Material
Standard Nozzle	Plastic Adjustable Nozzle
Fan Nozzle	Plastic 90° / 110° Nozzle
Mouth Opening in (cm)	1.3 (3.4)

HANDI SPRAYER

Sanitizer & Industrial Degreaser

504

Application

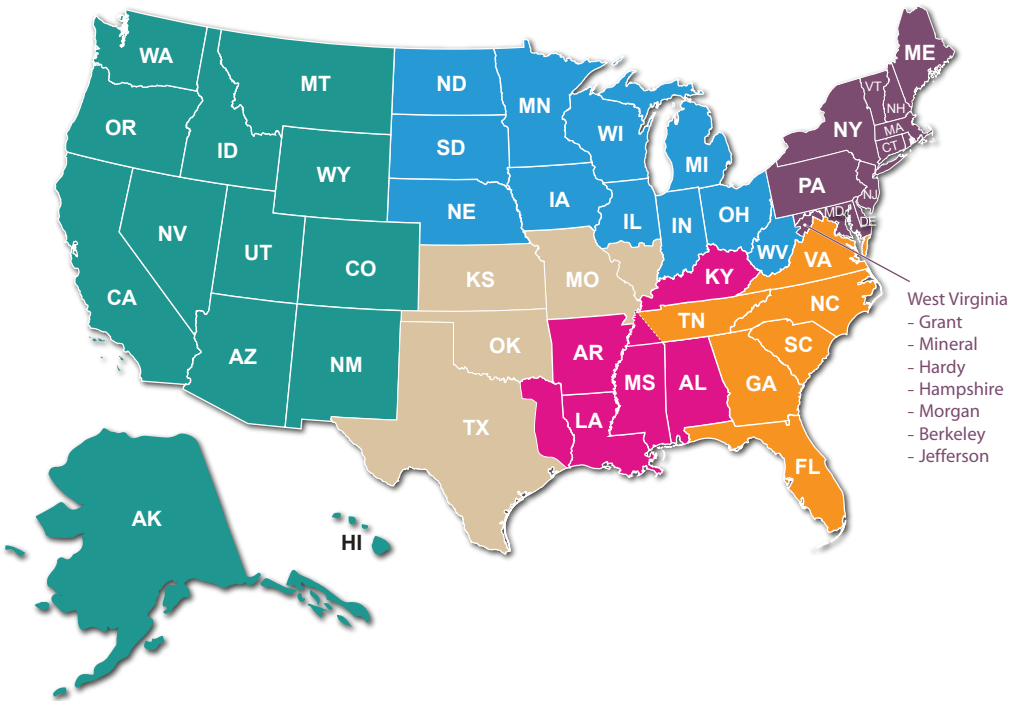

- Sanitation
- Bleach
- Degreasing
- Cleaning Compound

Using chlorine, sanitizing solutions, bleach, Clorox or ammonia in non-approved spray bottles is a serious safety hazard. The best solution, Sprayers-Plus™ 504 Sanitizer & Degreaser Handi Sprayer is designed specifically for safely use in cleaning and degreasing applications. 504 Handi Sprayer is fitted with an adjustable spray nozzle capable of a vapor or spout application of 5.0±0.5ml

- High grade and reliable Viton®
- 1.4L holding capacity
- Long range spot spraying
- Adjustable nozzle for stream and mist
- 90° & 110° fan nozzle included
- Large 1.30" QuickFill opening design

Type	Handi Sprayer
Target Market	Industrial
Pump Type	High Output Piston
Capacity oz. (ltr)	48 (1.4)
Seals & O-Rings	Viton®
Standard Nozzle	Plastic Adjustable Nozzle
Fan Nozzle	Plastic 90° / 110° Nozzle
Mouth Opening in (cm)	1.3 (3.4)
